

Section 2

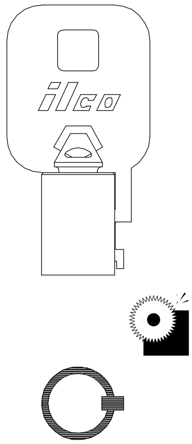

NORTH AMERICAN CYLINDER

Key Blanks designed for locks used primarily in the North American Market. The lock manufacturers are listed in alphabetical order where possible.

There are several symbols and suffixes used in this section. Below is a legend of their use.

(symbol)	Special Key Machine Required
-PC	Color Plastic Head Key

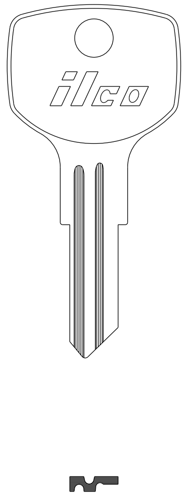

ACE

OD .377" - 9.6mm
ID .312"- 7.9mm
(BRASS)

* NOTE: This special blank is not a cut key. It is to be used the same as regular blanks for duplicating, cutting from code or from depth keys. It will save the locksmith 80% of his work, and the key can be cut more accurately and in less time. After cutting the special blank, when compared with the original keys, they will not be exactly alike in the pass cut positions, but this is not important as long as they match with the original where the tumblers rest on the key.
